

SIGCHI-NZ Symposium on Computer-Human Interaction

www.cs.waikato.ac.nz/chinz2002

University of Waikato, Hamilton, NZ
July 11th – July 12th 2002

CALL FOR PAPERS

Human-Computer Interaction is the noble face of Computer Science. It's the part that can bring hope to an increasingly push-button world that often seems frustrating and confusing to users.

The 3rd Annual ACM SIGCHI NZ symposium on Computer-Human Interaction will bring together New Zealand's growing community of interactive system researchers and industry practitioners. The two-day event will encourage, inspire and motivate us all to make our users' lives, our communities and society better.

Harold Thimbleby, the internationally renowned and innovative HCI researcher who is Director of the University College London Interaction Centre UK, will give the opening Keynote. The programme will also provide many opportunities for us to share new interactive techniques, technologies and methods and to pursue collaborative opportunities. And, of course, with a good social programme, there will be times to relax, catch-up and enjoy the visit to Waikato.

We encourage submission of detailed research findings, work-in-progress, case-studies, industrial perspectives, student work and system demonstrations.

Important dates

10 th May 2002	all submissions due
10 th June 2002	response to authors
24 th June 2002	final submissions due

Papers

Full paper submissions are invited in all areas of Computer-Human Interaction. We also welcome proposals for posters and system demonstrations. Papers should be no more than 6 pages in length. Details of the required format and the submission process can be accessed at www.cs.waikato.ac.nz/chinz2002/authors.html.

Symposium programme

The symposium will take place over two days. The proposed schedule comprises: four research paper sessions, two keynote speakers, an industry session, posters and a panel discussion. A draft schedule can be accessed at www.cs.waikato.ac.nz/chinz2002/programme.html

Registration

The conference fee is \$200 (\$110 for presenters who are full-time students). This will cover all symposium sessions, morning and afternoon refreshments, 2 lunches, the conference dinner (on Thursday night) and a printed copy of the proceedings. Participants will also be given a year's membership to the NZ Chapter of the ACM Special Interest Group in Computer Human Interaction (www.acm.org/chapters/sigchi_nz). Full registration details will be available shortly at www.cs.waikato.ac.nz/chinz2002/registration.html
